

Digital Photography Class at Dutch Springs

Sunday, May 16th, 2010

Sunday, July 25th, 2010

Saturday, June 19th, 2010

Saturday, August 22th, 2010

The introduction to Digital Underwater Photography course is designed to introduce you to digital underwater photography using today's point-and-shoot and SLR digital cameras. This course will help students develop the knowledge, skills and practical techniques necessary to take excellent photographs with a digital camera.

The introductory course is primarily for those interested in learning the basics of digital underwater photography. The basic course consists of two dives and classes to review your photographs.

- ** Equipment Orientation
- ** Basic Exposure Control
- ** Using an Accessory Slave Flash
- ** Macro and Close-Up Underwater Photography
- ** Wide-Angle Underwater Photography
- ** Composition of Underwater Photography
- ** Understand the color of light underwater
- ** Image editing software
- ** How to backup your images
- ** Preparing photos for emailing and printing
- ** Save, organize and archive your images.

About the Instructor

Bob Hahn is a PADI Master Scuba Diver Trainer and NAUI Instructor and teaches the PADI Digital Underwater Photographer Specialty Course. Bob is an Olympus certified underwater photography instructor. His scuba diving instruction takes him to the Caribbean, Florida, Northeast US and his home area Dutch Springs in Pennsylvania. Bob also teaches photography classes at the Banana Factory in South Bethlehem.

Bob has been a professional photographer for more than 35 years, specializing in corporate, industrial, travel and leisure and underwater photography. Bob is a member of the American Society of Media Photographers (ASMP).

Photography class including the PADI Digital Underwater Photographer Specialty Course Certification \$150.00
